PROFILE

I am Priyanshu bhatt who is passionate about frontend development. I have experience with programming languages like JavaScript and Solidity, as well as frameworks like React.js and Qwik.js. I am confident that I have the skills necessary to be successful in a frontend development role. I am eager to contribute to a team and help create innovative and user-friendly web applications

SKILLS

Languages/: C++, Java, Python, JavaScript/TypeScript, HTML/CSS, solidity

Tools: Git/GitHub, VS Code

Framework: Qwik.js, Tailwind CSS, React.js, Truffle, Hardhat

PROJECTS

Website

I am confident in my ability to create responsive websites using Qwik.js and TailwindCSS. I have used flexbox concepts and Responsive design principles to create two websites that work well on a variety of devices.

TravelYatri

I am contributing to frontend development projects. I have worked on the TravelYatri project, where I am responsible for the frontend design of the home page, login/signup page, and other pages. I used frontend technologies, including React.js, TailwindCSS, JavaScript, and responsive design.

Blockchain crowd funding platform

With a stunning design, connected to the blockchain, metamask pairing, interaction with smart contracts, sending Ethereum through the blockchain network, writing solidity code, and much more Blockchain is a decentralized technology that uses smart contracts to execute transactions. These smart contracts define the semantics of a web 3.0 application. As a result, everyone who wants to develop a blockchain application must use the shared state machine
